Pig Girl Brainwashing files are back, the experiment continues

by belyaev

NOTE: I'm going offline for a few months, starting Sept 2nd 2021, as real-life stuff has piled up that needs my full attention. Good luck to everyone with everything and take it easy!

After a number of months I've decided to make the Pig Girl files available again.

[The files](#) have highly extreme content, and as of yet it is uncertain when do they simply provide super-arousal, and when do they start changing the user for real.

A 4.30-hour long full immersion introduction sequence to the whole series (for those who have the time and stamina):

1. Bimbo Secrets of Filthy Pleasures
2. Pig Girl Brainwashing
3. Anal Pig Filthy Whore Brainwashing
4. Pig Girl Brainwashing Extreme Binaural
5. Anal Pig Toilet Pig Brainwashing
6. Pig Girl Swallowing Abyss Brainwashing

I urge users to provide regular detailed feedback on all files (in journals, or the forums, or as comments under the files), so that the files can be marked appropriately, side-effects can be mentioned, and later this knowledge can be incorporated and used to make both less extreme files and more extreme files.

For example:

- a) How intense was the sexual arousal and/or orgasming?
- b) Did a trance state occur? If yes, sudden onset or gradual? Depth?

- c) Are the files addictive?
- d) Any lingering aftereffects from the files after listening?
- e) Are you a pro user of hypno and brainwashing files, or a newbie?
- f) Any additional thoughts and recommendations?

The files represent two basic techniques: some of them have one leading voice which mostly addresses the conscious mind, while others have a combination of leading voices which overload the unconscious mind once the listener lets go and begins "understanding them".

The more feedback there is the quicker new files can be made.

Fun and games is well and good, but it's probably best for one to remember to keep the ole immune system in decent shape, times being what they are. This would include vitamins, liquids, days without porn, and nights of quality sleep. As an investment into being able to enjoy the games longer and deeper.

NOTE: I'm not taking on any slaves or clients currently, not will I be anyone's guide.

If someone possibly goes in too deep and wants to go back—kindly describe the process as warning to others, and then either seek help from other files or tists (or forum advice from other users), or go on a cold-turkey mostly offline period of up to 90 days without hypno and porn, and with lots of liquids, vitamins, walks, and pre-internet books and films, to help the nervous system and personality regain shape and function.

Report 1 from hypno-fetish.com - belyaev

"I listened to the first two files which were indeed very degrading and strong. Being a human toilet , eating ass etc is not for me so I won't listen again.\r\nThe questions\r\n1) Arousal was huge but I didn't have an orgasm.\r\n2) Yes I was very deep in trance.\r\n3) Yes, it will take a few days before it's out of my head.\r\n4) While writing this comment I,m starting to get very horny and I'm suddenly not so sure I don't want to listen again.\r\n5) A pro for years.\r\n6) Can't think of any right now\r\n"

Report 2 from hypno-fetish.com - belyaev

very degrading, very potent files. i got thoroughly lost within these files. i do not recommend them as they really fucked with my mind. (12 hours later the same user posts a new message) 1. sexual arousal is incredibly intense, intensity increases with multiple listens, not the normal inevitable dulling and waning interest which typically occurs with multiple listens... oink oink!\r\n\r\n2. Trance state occurs, yes yes. It used to be gradual, it is now instantaneous whenever triggers are heard, and when finger snaps are heard... oink oink!\r\n\r\n3. yes yes! oink oink!\r\n\r\n4. Lingering affects of hopelessness and humiliation and only feels better and truly happy now when piggy returns and continues pig brainwashing. Pig dreams of being tied to a spit and slowly turned forever, burning away any human personality\r\n\r\n5. I am a pro user to brainwashing files and now I am a pig user to these files... oink oink!\r\n\r\n6. these files are wonderful and piggy must continue listening forever. piggy sexually aroused now with insane wiring inside her head...oink oink!\r\narousal forever tied to discharge of pee pee and poop and vomit and cum. arousal forever tied to sticking larger objects up my pig ass,...

report 1 from professor pig - ProfessorPig

i have been listening to these files off and on for a good month or so. they hit me really hard and fast, but i am a well versed subject who already identified as a toilet pig, so in many ways it was not a huge jump for me. There are several things i love about the files. these files very quickly got me eating shit again, which was something i had not done for 5+ years before listening to it. it was also far easier than i remember to savor and swallow shit. and watching the files while

sucking on a filthy log of shit was pure pig heaven. the files also got me very quickly back into anal play. i ruined my ass when i was younger using large wide toys without lube, so anal play is really hit or miss with me. but the degrading nature of the file made it so even if my asshole was throbbing and rejecting the toy i still got Lost in Pig Heat of feeling violated. i also really enjoyed taking pictures and video of being such an Open and Accepting Toilet Pig and sharing them with people. There were also several negative aspects to the files. the files have suggestions about not enjoying your normal life and not being able to sleep without completing a checklist of pig activities. this triggered a bout of depression and made it so i could barely sleep for three days in a row. i managed ok at work, but this could have been really been a negative impact on my life. i should also state, i have a really good hypnotic safety net, and usually i have no trouble blocking out suggestions like these that will cause problems, but much to belyaev's credit my deep desire to Swallow Everything seems to have bypassed any rational need to resist harmful suggestions. i still really want to listen to these files because it feels so good to Wallow in them. the suggestions have already been accepted, so even when i am not listening to them they still loop around my mind when i am aroused. outside of trance i have invasive thoughts about licking strangers asses and licking the toilets at work, but they have just been passive thoughts. i still listen from time to time, but not every day for 3+ hours like i was at the beginning.

Report 3 from hypno-fetish - belyaev

Different anonymous user: "Since I see myself as a fat pig with fetishes that include toilet and anal fantasies, I was first drawn in by pig brainwashing. I am not the bimbo type so I don't listen to the entry file. I have issues with a couple of the files where the slurping is loud and it annoys me but since I have been listening everyday now I don't mind it so much. I just turn the set of files on and let them run to the end and then usually again. I spend more time now edging and being aroused then I ever have. I listen to the files while looking at porn and edge. I am so addicted to them I can't cum unless I do. My orgasms are powerful and I am so glad you posted these gender neutral since I prefer more graphic and filthy files which are usually directed at men. So thank you as I have had hours and hours of arousal and pleasure from them. Would I do what is suggested in the file yet? As a sub with no owner maybe. With an owner into what these files suggest, yes I would."

Update on report 1 - belyaev

The user quoted in report 1, now wrote this: "\"brainless pig pissed on the bathroom floor and licked it up, all naked of course.\""

Update on report 2 - belyaev

The user quoted in report 2 has deleted their comments, their pictures of themselves, and has gone offline, to try and reboot their sanity. Let us wish them good luck!

Update on report 3 - belyaev

The user quoted in report 3 ("fat pig with fetishes") has deleted their online profile. Good luck to them as well!

Report 4 - belyaev

A fourth user: "\"I am wearing a vibe butplug as I write this and listening to the third file in the series. I love your files and listen to them often. I orgasm after I allow myself the pleasure of a long edging to them sometimes climaxing more than once. I do become tranced especially if I am looking at toilet porn, scat porn and piss porn. I have listened to them many times now and never cease to find them boring. In fact for me it increases my desire to be a full slave toilet. I want to be addicted to them and now I am. I know others have found the files too filthy, but that is what i love the most about them. I want the degrading filth to fill my head and would love more and intense files to finally break my brain so I can seek an owner to train me irl. I could use more depravity really but I am not the norm. Thank you for creating them as these are the best files I have found on this site for me.\""

Report 5 - belyaev

1. Incredibly intense. More intense with each listen\r\n2. Gradual to begin with. Now sudden. Very deep\r\n3. Very\r\n4. Lack of focus, arousal, distraction, low inhibitions, more risk taking\r\n5. Long time subject\r\n6. Not for the faint of heart. Easy to slip from testing the waters to long term use

Report 6 - belyaev

Sixth user feedback: 1. The intensity is exceedingly high... trying so hard not to orgasm but its impossible not to when listening to these files\r\n2. Yes yes trance occurs. perhaps it was gradual in the beginning, but now its sudden, the triggers work automatically now, the more i listen the deeper i go.\r\n3. OMG Yes the files are addictive, like the most addictive files ever! they almost demand the listener to have repeat listens.\r\n4. lingering effects are strong and feeling more permanent everyday! i now know what i am. i now experience the most depraved and humiliating and disgusting acts and they make me hornier, weaker, needier.\r\n5. i am a long time hypno junkie. newbies need to be very careful because regulars like me are forever programmed to be brainless fuck pig.\r\n6. make sure to listen to the files in order. get used to the files, know the files before going on and listening to the other files with multiple voices layered over one another. if you do, the layered voices will have such an incredible impact...

Possible different impact on relationship with anima and animus - belyaev

A number of biological women users have reached out, for whom the Pig Girl files provided a cathartic therapeutic effect that shocked them right out of things like porn addiction, abusive relationships, and toxic self-denigration in real life. Perhaps in the Jungians sense of the sexes possessing mirror subconscious personifications, the Pig Files allow the biologically male users to dissolve deep into the Anima, while to the biologically female users the file does the opposite--via guided experience of depravity and fear helps in the end organize in a more ordered way boundaries keeping in check some aspects of the Animus.
